

Project Performance Test

Date	06 July 2026
Team ID	
Project Name	Plugging into the Future: An Exploration of Electricity Consumption Patterns
Maximum Marks	

Model Performance Testing:

S.No.	Parameter	Screenshot / Values
1.	Data Rendered	State-wise daily electricity consumption data (Consumption.csv) rendered in Tableau across four worksheets: "Usage by Region", "2019 State Consumption", "2020 State Consumption", and "Total Consumption" — covering 33 states, 5 regions (NR/SR/ER/WR/NER), Jan 2019–Dec 2020.
2.	Data Preprocessing	Standardized inconsistent state name spellings; confirmed no missing values in the 16,599-row source; converted Date to a proper date type; noted that 2020 has substantially fewer reported rows per state than 2019, so state/regional comparisons take the reduced reporting window into account.
3.	Utilization of Filters	YEAR(Dates) filter (2019 / 2020) applied to both state consumption maps Regions filter/legend (ER / NER / NR / SR / WR) States filter used to drive the Top N / Bottom N view Top N and Bottom N parameters (set to 5) controlling how many states are ranked
4.	Calculation Fields Used	Top N Parameter = integer parameter controlling how many top-ranked states are shown Top N Rank = RANK(SUM([Usage]), 'desc') used with the Top N parameter to filter the highest-consuming states Bottom N Rank = RANK(SUM([Usage]), 'asc') used with a Bottom N parameter to filter the lowest-consuming states
5.	Dashboard Design	No. of Visualizations / Graphs - 3 1. Usage by Region — bar chart of SUM(Usage) by Region, split by YEAR(Dates) (2019 vs 2020) 2. Total Region Consumption — pie chart of total usage share by region 3. Region Wise State Usage — combined dashboard: region/state usage table plus Top N and Bottom N state ranking charts

S.No.	Parameter	Screenshot / Values
		The screenshot displays three Tableau visualizations. The top visualization, 'Usage by Region', is a bar chart comparing 2019 and 2020 usage across five regions: ER, WB, NB, UP, and BR. The second visualization, 'Total Region Consumption', is a pie chart showing the distribution of total consumption by region. The third visualization, 'Region Wise State Usage', is a table listing consumption for various states in 2019 and 2020.
6.	Story Design	No. of Visualizations / Graphs - 3 2019 State Consumption — choropleth/bubble map of SUM(Usage) by state, filtered to YEAR(Dates): 2019 2020 State Consumption — the same map filtered to YEAR(Dates): 2020, showing the shift in state-wise usage - Total Consumption — dual bar chart comparing each state's usage in 2019 vs 2020, sorted highest to lowest The screenshot shows a Tableau story sheet titled 'Sheet 1' displaying a map of India. The map is colored by state-wise consumption in 2019. The legend on the right indicates the color scale for consumption values.
